Jones Naturally Hickory Smoked Dry Aged Bacon

It starts with old-fashioned flavor.

When you have a history like ours, you rely on it. And farm fresh flavor is our family's history. We begin with only fresh pork bellies, never frozen, so you get a leaner product with better yield than competitors offer. We also work with smaller batches of bellies so more individual care is taken with each one. Then several hours of slow smoking our bacon brings out the rich flavor of our mild, sweet cure. Finally, we don't brine-chill our bacon. We air-chill it before it's pressed and sliced, making for a better tasting bacon flavor. Our whole process takes a lot more time, but it's worth it for the taste customers remember and ask for.

Naturally Hickory Smoked Grill Ready Bacon

Jones Naturally Cherrywood Smoked Dry Aged Bacon

Natural cherrywood smoked bacon is a new favorite.

Jones was the first to create a unique-flavored bacon by smoking it with cherrywood. This product has a lighter, redder tone and is slightly sweeter than our hickory smoked bacon. That hint of sweetness will have your customers asking for more.

All Natural Uncured Cherrywood Smoked Bacon
