# Jones **Hickory or Cherry Hardwood** Naturally Smoked Hams

Genuine flavor comes from uncompromised quality and, of course, cherry or hickory hardwood.

We start with the freshest, leanest cuts of meat then naturally smoke them nice and slow over real hickory or cherry hardwood. No liquid smoked is ever used unlike some of the competition.

With the seam fat removed and no ground trimmings or fillers added, our hams yield more usable meat than our competitor's ham. Each ham delivers

farm-fresh flavor in every bite and is consistently juicy and tender, slice after slice.

**It's safety now and always.**

Food safety will always be important to us, so we'll tell you about it over and over again.

Products are tested in a laboratory that is A2LA accredited in accordance with the recognized International Standard ISO/IEC 17025.
